

# Whisper 1240

Panel | Acoustic

Our acoustic fabrics are all acoustically transparent. This represents the amount of sound that passes through the fabric.

Acoustic Transparency: 95%

## Acoustical Performance

### Acoustical Performance for Panel Applications (ISO 10534-2)

| Frequency (Hz)                                 | Whisper 1240 |
|------------------------------------------------|--------------|
| 250                                            | 0.95         |
| 500                                            | 0.97         |
| 1000                                           | 0.96         |
| 2000                                           | 0.95         |
| NRC of fabric in front of anechoic termination | 0.95         |
| NRC of anechoic termination                    | 1.00         |

This test measures the NRC of fabric in front anechoic termination (NRC of anechoic termination = 1.00). The test is done using an impedance tube with a sound source connected to one end and the test sample mounted in the tube at the other end.
