

The image features a basketball player in a red jersey jumping to shoot a ball. The background is composed of yellow acoustic tiles with a geometric, three-dimensional pattern. The player is positioned on the right side of the frame, and the ball is held high above their head. The overall color palette is dominated by yellow and orange tones.

ARTOFIX

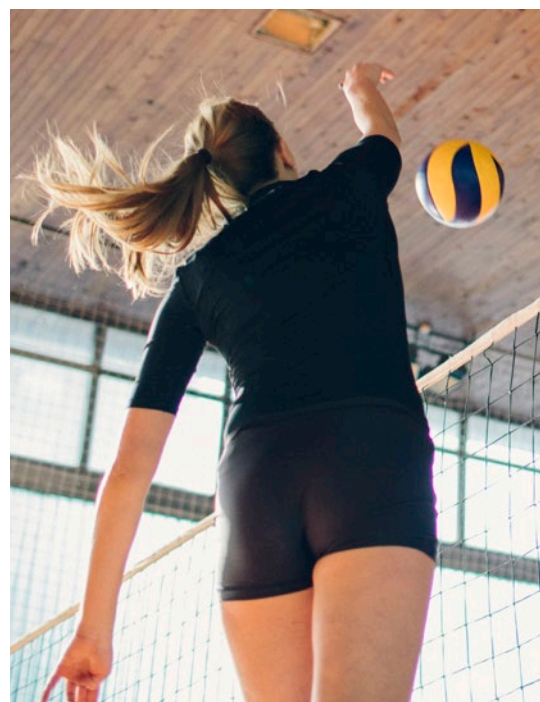

The acoustic tile that
defies impact.

NOISE AND REVERBERATION CAUSE MAJOR ISSUES IN SPORTS FACILITIES

30% of individuals visiting indoor sports facilities struggle to precisely perceive sounds.

Noise reduces concentration and affects performance!

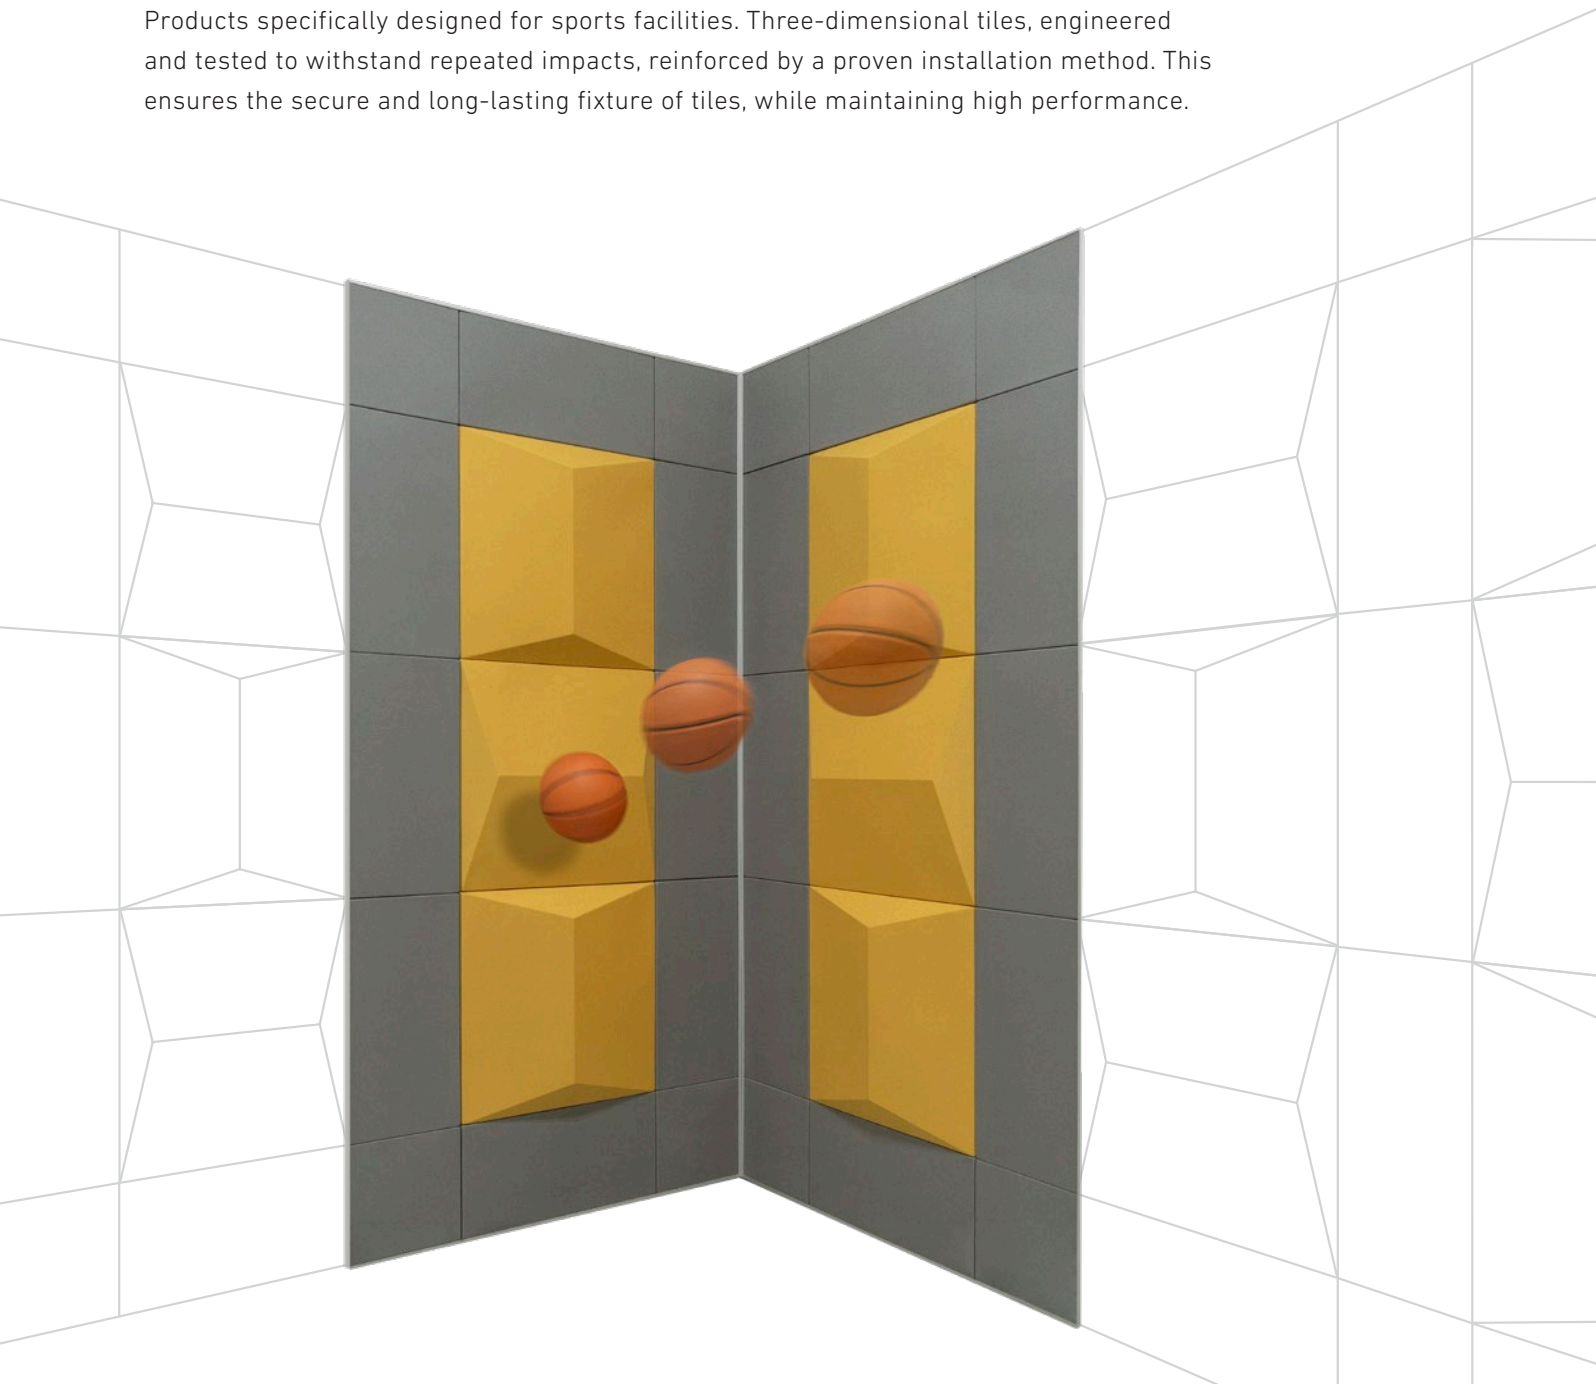

Indoor sports facilities pose significant challenges for noise control and require durability against repeated impacts.

IMPACT DEFYING.
ECHO CAPTURING.
AESTHETICALLY ENHANCING.

Punchy solutions!

Products specifically designed for sports facilities. Three-dimensional tiles, engineered and tested to withstand repeated impacts, reinforced by a proven installation method. This ensures the secure and long-lasting fixture of tiles, while maintaining high performance.

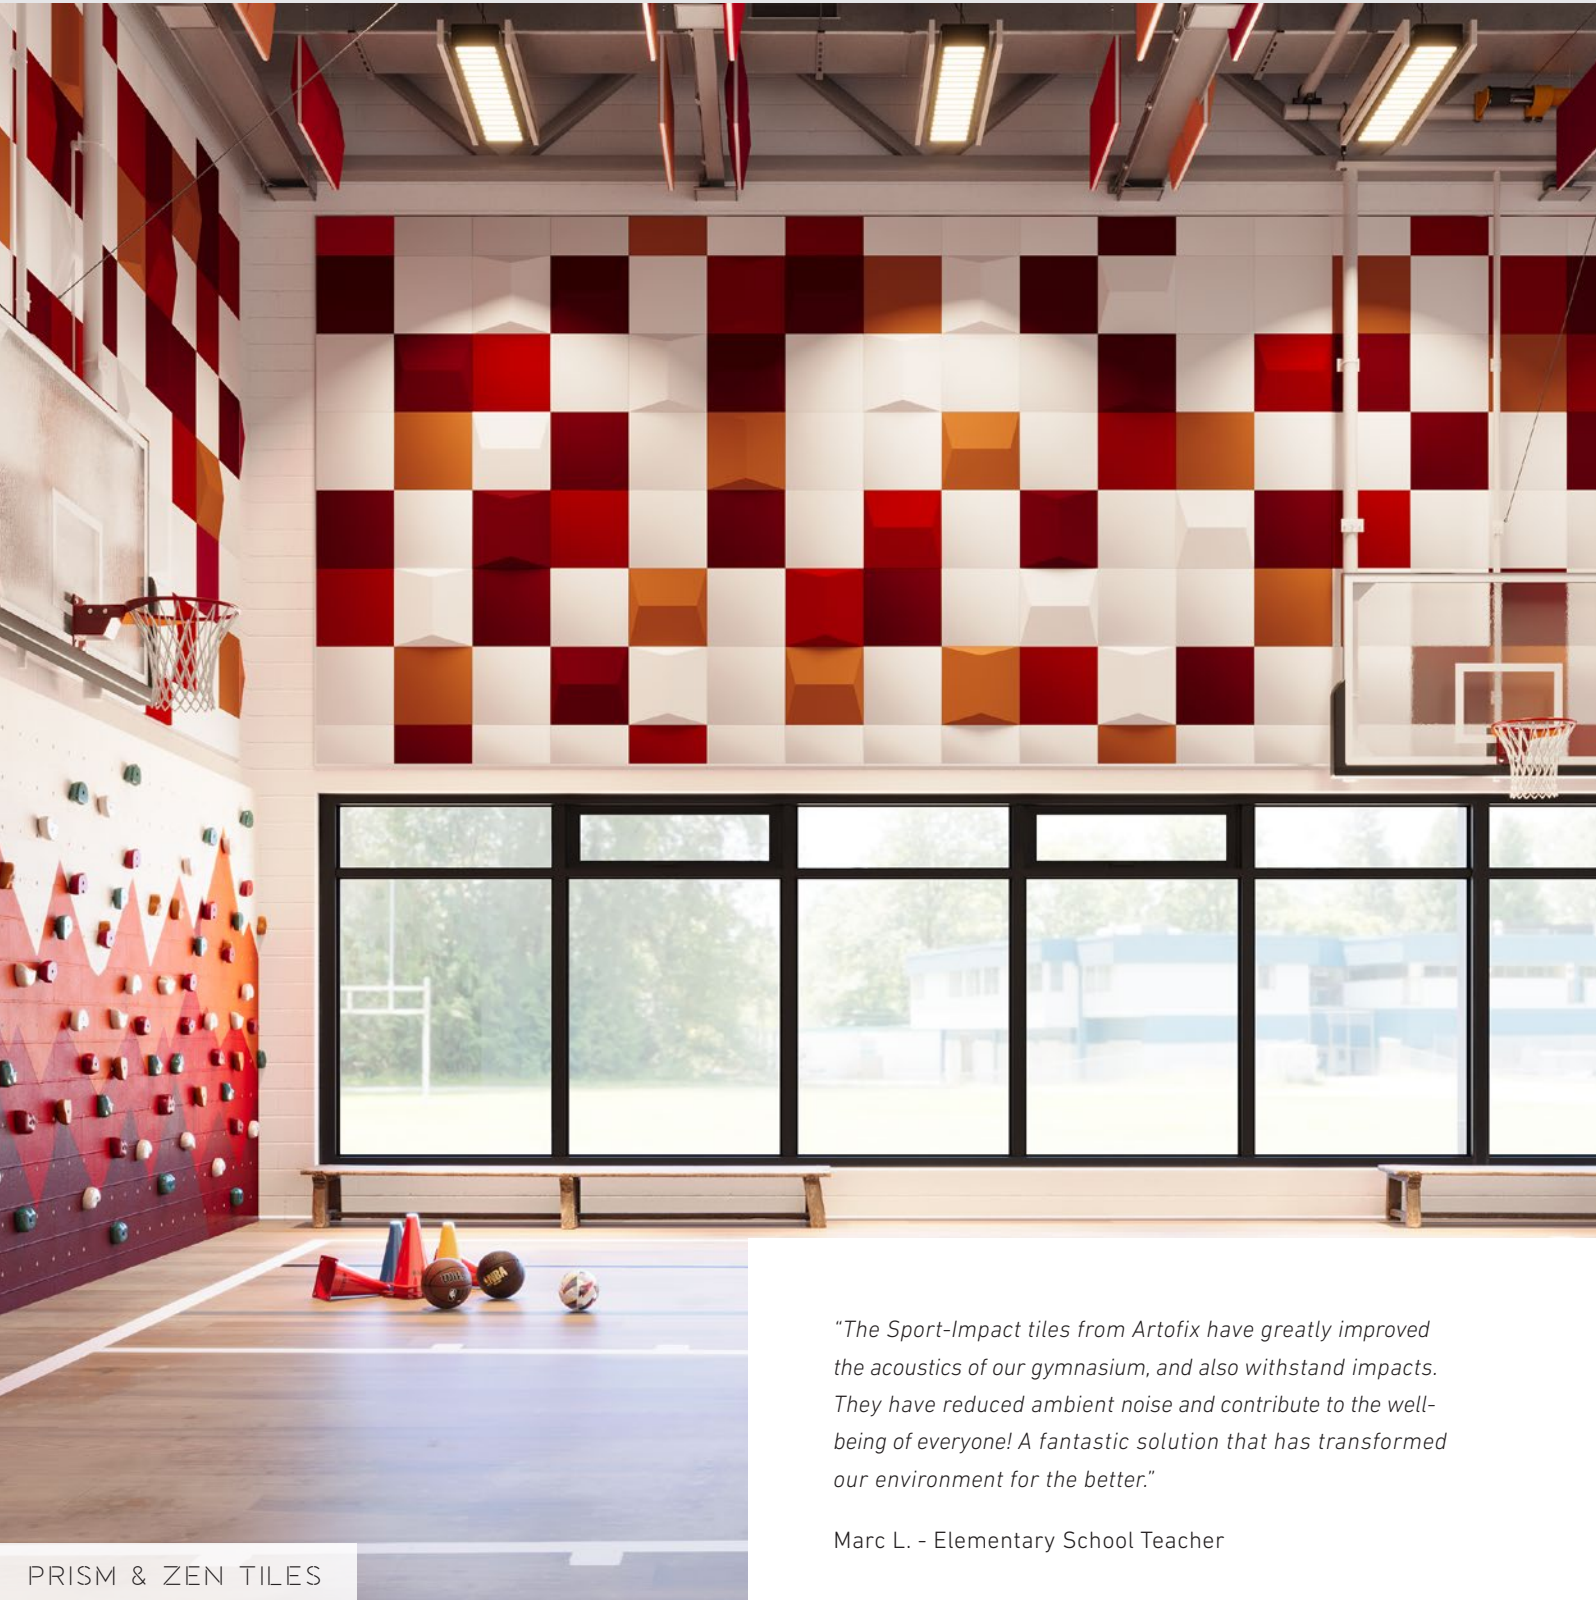

A striking aesthetic!

Artofix's Sport-Impact tiles offer clients, designers, and architects many options to create unique designs that meet their specific acoustic and aesthetic needs, while also providing impact resistance.

- Variety of shapes, textures, sizes, and colors offering multiple combinations.
- Strong and durable tiles made from high-quality materials.
- Signature designs that combine exceptional acoustic performance with distinctive style for each project.

Proven experience!

With over a hundred completed projects for sporting venues, Artofix is the benchmark in acoustics and impact resistance for projects in active environments.

"The Sport-Impact tiles from Artofix have greatly improved the acoustics of our gymnasium, and also withstand impacts. They have reduced ambient noise and contribute to the well-being of everyone! A fantastic solution that has transformed our environment for the better."
